

California Energy Commission
2005 Integrated Energy Policy Report
Docket Number 04-IEP-1

Electricity Retail Price Forecast Forms

The following spreadsheets are the Energy Commission's adopted forms for collecting data and analyses relating to electricity retail prices. The Energy Commission's statutes and regulations specify that a broad array of information can be collected and analyzed to prepare the *Energy Report*. Specifically, Public Resources Code (PRC) Section 25301 directs the California Energy Commission (Commission) to conduct regular assessments of all aspects of energy demand and supply to that it may develop energy policies that conserve resources, protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety. To carry out these assessments the Commission may require submission of data from market participants in California:

To perform these assessments and forecasts, the Commission may require submission of demand forecasts, resource plans, market assessments, and related outlooks from electric and natural gas utilities, transportation fuel and technology suppliers, and other market participants. PRC 25301(a)

Technical questions relating to electricity retail price forecast should be directed to Ruben Tavares of the Electricity Analysis Office at (916) 654-5171 or by email at [Rtavares@energyv.state.ca.us].
